

Christmas And You

I like to think about that night long ago
When the Son of God was born to Mary and Joe
I have to smile when I think about that baby boy
And what He came to earth to do for me
He took away my sin and He set me free
And now I just want to celebrate it with you

Chorus:

I love the lights, I love the snow
And I never want to let you go
When we're standing under the mistletoe
And through my eyes it's clear to see
What this season means to me
I love Christmas and you

I like to look into the eyes of a child
As the excitement almost drives him wild
He just can't wait to tear into all those brand new toys
And if you listen really close you will hear
The sound of carolering somewhere near
And you can't help but wish that this night would never end

Chorus:

I love the lights, I love the snow
And I never want to let you go
When we're standing under the mistletoe
And through my eyes it's clear to see
What this season means to me
I love Christmas and you

Bridge:

The snow is falling all around, it's quite the view
But it'll never be as beautiful, as beautiful as you
