I had a brother, yes I did  
I guess you could say he was a unique kid  
Everyday after school he'd be playin' outside, playin' outside  
One day I saw him in the yard  
And what I saw left me permanently scarred  
I just couldn't believe the horror I saw, horror I saw

As the sun heated up  
He pinned a ladybug down  
He took his magnifying glass  
I heard a hideous, gruesome sound

Chorus

It was a ladybug fryin' on the sidewalk  
Listen to it sizzle while it burns in the sun  
Ladybug fryin' on the sidewalk  
And if that bugger was a burger then it'd be well done

Well the years went by but I never forgot  
About the messed up tan that insect got  
What did it do to deserve to get burned like that?  
Well here's a little tip if you're a bug  
Fly away from my brother 'cuz he's a thug  
And if your wings start to get hot – Start runnin' with all six legs!

'Cuz when the sun heats up  
The light comes shining down  
You wonder 'what's that smell?'  
And then you hear the sound of

Chorus

Poor little ladybug  
You never it saw it comin'  
One minute you were flyin' around  
Ladybug – You never saw it comin'  
The next thing you knew you heard the hideous sound

Chorus
