## CHORUS

We're Go Fish and we're feelin' kinda snazzy  
A little rock-n-roll and a little razzle dazzy  
Put 'em both together, That's how we make our sound  
We like to crank it up so you can all get down

## VERSE 1

We decided to be done chasin' number ones  
'Cuz we're havin' way more fun with the kids  
They said we wouldn't be cool if we did this music  
But we really didn't care so we did  
Now we travel to the east  
We travel to the west  
We're singin' all our songs  
For the ones that we like best  
If you're 3, 5, 87 we don't really care  
If you're ready for some fun  
Get your hands up in the air

## CHORUS

## VERSE 2

We do what we do even if it's underrated  
We're real, baby, real not computer animated  
There's only one of us like there's only one of you  
Did you know you're a superstar, yeah we know you do  
If you got a dream then give it all you got  
Be who you are and just let go of what you're not  
If you even get tomorrow it'll be over quick  
You only get one chance so you better make it stick

## CHORUS

## VERSE 3

I tried to be good, I thought that was enough  
Then the ten commandments came and called my bluff  
I told God I was sorry for my sin and then  
He cleaned me up and now I'm snazzy again

## CHORUS
