

Welcome To The World

Billy Sprague

Welcome to the world
Heaven's light is shining on your face
Welcome to the sun
There's nobody who can take your place

I know that the wise old man
Said there's really nothing new
I know he would change his tune
If he took one look at you

Welcome to the world
Heaven's light is dancing in your eyes
Welcome to my heart
Just a smile from you can make it fly

I hope when the time is right
I can tell of God's love
But I know it will be like now
There will not be words enough

Welcome to the world, my love
Welcome to my heart
When I look at you it flies away
When I look at you it flies away
